

WEST END HOUSE

Welcome to our new Board President Mindy Berman!

Mindy Berman, a third generation West End House family member, has been elected as our new Board President. She has served on the West End House Board of Directors since 2016 and has co-chaired our Finance Committee. Mindy's dedication and commitment to West End House goes beyond her Board service. She ran the 2018 Boston Marathon on behalf of West End House, convincing her brother John to run for us as well. For several years prior to her Board service, she served on our Annual Celebration Event Committee. Mindy and her husband Dan, who reside in Newton, MA, have three teenage daughters, one of whom has already carried on the family tradition by volunteering at the West End House. Mindy is currently Managing Director of Investor Group Services, which she founded in 1998. As the first female president in our 113 year history, Mindy is a shining example to all the young women of West End House. We are ecstatic to have her leadership and mark this milestone with her.
